came up for hearing to-day, Chairman F. B. Kennedy appearing for the "dry" interest and A. C. Gordon, chairman of the Democratic County Committee, and Hon. W. E. Craig representing the opposition. Further objections were urged as to the sufficiency of the petition, and Mr. Kennedy moved the Court for a dismissal of the original petition, which dismissal was granted by the Court.

The "drys" evidently feared that if the Court ordered an election an appeal would be taken by the "wets," and a long time would ensue before the Appellate Court's decision was rendered. The impression prevails that the "drys" have dropped into a hole, as it is claimed that in the face of these proceedings under the local-option act no local-option election can be had for two years to come. This is the opinion of able lawyers, but the "dry" leaders laugh at the proposition. The Prohibitionists will publish a new weekly paper here to be the State organ, its editor being W. L. It seems to be a settled fact that the existing tax on smoking and that the existing tax on smoking and thewing tobacco will remain at the present figures. The tax on cigarettes has already been heavily increased, so far as the committee's action has any bearing, and that recommendation will doubtless be sustained by the House, as there is a general belief that cigarettes can stand it—at least, that is the talk heard among the statesmen, though the manufacturers will probably not coincide in the opinion.
